A greyhound who adores human interaction. Has never proven to be problematic in his kennel. He has always been very clean when in kennel and when travelling in a car/van. An intelligent greyhound who learns quick and should be great in a home/family environment.

A very friendly greyhound.

Well behaved around children.

Very compatible with large dogs. Can be a bit boisterous with small dogs at first until he gets acquainted with them.

Not cat friendly.

Fractured a metacarpal when a puppy but fully recovered from that injury. Sprained a hock in April 2018 but again he has fully recovered from that injury. Old injuries do not affect his daily life in any way.

Ready for rehoming/transport from early August 2018
